MOUNTAIN SAFETY IS A PARTNERSHIP

Ski California and its 32 member resorts in California and Nevada would like to thank our partners for their effort and dedication to support snow sport safety:

OUR PARTNERS IN SAFETY

- AVALANCHE AWARENESS:
  - If you plan on venturing into avalanche territory, contact the local avalanche repayment before skiing.
  - Do not try to enter avalanche terrain unless you have proper training and equipment.
  - Avalanche education is essential for all skiers and riders.

- TRAIL SIGNAGE:
  - Trail maps contain a wealth of information, including trail and lift locations, trail difficulty, and lift information.
  - Use properly maintained equipment.
  - Be aware of your surroundings and use caution.

- RIDING:
  - Always stay in control, and be able to stop or avoid other skiers or riders.
  - People ahead of you have the right of way. It is your responsibility to avoid them.
  - Be lined up with other guests and unloading is easy.

- LOADING:
  - Prior to using any lift, you must have the knowledge and ability to load, ride and unload safely.
  - Always check your gear and be prepared to load before moving from the “Wait Here” area to the “Load Here” area.
  - After unloading, move away from the chair and ensure you are clear from other guests unloading.

- YOUR RESPONSIBILITY CODE
  - Always take care, and be able to stop or avoid other skiers or riders.
  - People ahead of you have the right of way. It is your responsibility to avoid them.
  - Always check your gear and be prepared to load before moving from the “Wait Here” area to the “Load Here” area.

- OUR COMMITMENT TO SAFETY
  - We provide great information on how to use and understand the various trails and lifts.
  - We offer ski and snowboard lessons from qualified instructors.
  - We provide trail difficulty rating symbols relative to the resort's terrain.
  - We conduct ongoing lift inspections and maintenance, work with regulatory agencies, and staff trained lift operations.
  - We monitor weather and mountain conditions and modify mountain safety, post warnings, close trails, and conduct avalanche mitigation (when necessary).

- OUR PARTNERS IN SAFETY
  - We use required and industry approved signage to help direct and educate guests.
  - We provide trail difficulty rating symbols relative to a resort's terrain.
  - We offer ski and snowboard lessons from qualified instructors.
  - We conduct ongoing lift inspections and maintenance, work with regulatory agencies, and staff trained lift operations.
